

PHARMACY *update*

Quebec Edition

MARCH 2019

CHANGE IN PACK SIZE FOR OZEMPIC

Effective February 4, 2019, Ozempic (DIN 2471469 and 2471477) is being adjudicated in the GSC system in **mL** instead of per pen. Previously the system priced the claim as per pen where 1.5ml equals 1 pen. Please make adjustments in your software system to account for this **change to mL**.

providerConnect® is your online resource

providerConnect is GSC's web portal for health service providers in Canada. It gives you convenient access to forms, pharmacy manuals and guides, health coaching program information, and many other tools and resources all in one place.
